Re: Deficient Notice of Intention to Commence Small Mining Activities, 2 More Feet, S/013/007,
Duchesne County, Utah

Dear Mr. Higley:

Thank you for your updated Notice of Intention and your \$100.00 permit fee, received by the Division June 13, 2001, regarding your proposed 2 More Feet small mining project located in Section 8, T1N, R9W, SLBM, Duchesne County, Utah. The initial permit fee will be applied toward the new fiscal 2001-2002 year

A topographic map was not provided as required under Rule 647-3-105. Before we can grant approval of this project, a topographic map needs to be provided identifying access roads to the proposed site and the location of the site. A 7.5 minute map is preferred.

Also, the variance section was not marked; therefore, the Division will interpret this to mean that no variances are required and you will be responsible for full reclamation as summarized on pages 3 & 4 of the notice.

Please provide the required map within the next 10 days, so that the Division can then grant acceptance of this small mining project. **Please be advised that you must receive acceptance from this Division and the United States Forest Service before commencing with any mining related disturbances.**

Please contact me at (801) 538-5310 if you have any questions or concerns regarding this letter.

Sincerely,

Lynn Kunzler
Senior Reclamation Specialist
